

CITY OF TOLLESON

PUBLIC NOTICE

Public notice of industrial users in Significant Noncompliance (SNC) with the City of Tolleson’s Industrial Pretreatment Program

The Federal Clean Water Act established the National Pretreatment Program (40 CFR Part 403) to control discharges of pollutants into the sanitary sewer system and treatment plant of Publicly Owned Treatment Works (POTW). The authority to implement and enforce Industrial Pretreatment Program standards and requirements was delegated to the State of Arizona. The City, through the permit issued to it by the Arizona Department of Environmental Quality, has the responsibility for applying and enforcing the Pretreatment Standards and Requirements for industrial users served by the City’s Wastewater Treatment Plant and sanitary sewer system.

Pursuant to the requirements of the Pretreatment Program (§ 11-4-6 of the City Code), the City must annually publish a list of industrial users within its service area that have had violations that resulted in Significant Noncompliance as defined at 40 CFR Section 403.8(f)(2)(viii).

The following industrial user was in Significant Noncompliance during the calendar year 2013. Questions regarding the specific instances of SNC for the listed facility may be directed to the contact listed at the bottom of this notice.

INDUSTRIAL USER	TYPE OF NON-COMPLIANCE	OCCURRENCE OF SNC
JBS Tolleson 651 South 91 st Avenue Tolleson, Arizona 85353	Violation of the Selenium Limit	1 st through 4 th Quarter: 2013

For further information, please contact:

Todd Dougherty - City of Tolleson Pretreatment Inspector (623) 478-8723
