

**CITY OF TOLLESON  
REQUEST FOR QUALIFICATIONS (RFQ)  
VAN BUREN STORM DRAIN PROJECT**

The City of Tolleson is seeking a qualified consulting engineering firm to provide the final design of and the preparation of plans, specifications, and cost estimates for Van Buren Street storm drain improvements.

Conceptual improvement plans have been prepared and will form the basis for final design of the project. The project consists of approximately 3500 lineal feet of new storm drain lines, a new retention basin, new catch basins and an outlet structure, removal and replacement of asphalt pavement, easement acquisition, and related work. The project must be delivered on a fast track and construction will be phased to coincide with playfield improvements for the Tolleson Union High School. The successful firm will be required to obtain plan approvals and Flood Plain Use permits from the applicable agencies and provide bid assistance and construction support services. Overall project management, construction administration, and construction quality assurance services will be provided by the City of Tolleson.

The RFQ packet provides comprehensive detail of the project, submittal requirements, and the evaluation process for all interested respondents.

**RFQ packets can be requested from:**
